To whom it may concern.

I have known Peter for a period of 6 years and required his services on several occasions.

Anyone looking for the services of someone such as Peter, is normally doing so because of lack of satisfaction from their current service provider or have lost valuable documents and are hoping to find someone who can retrieve them. It is with a great deal of hesitation that you allow someone access to your personal or company computer system, as many valuable and irreplaceable documents and files are at risk.

I am not qualified to assess Peter's capability on a technical level, I can only convey to you that Peter Smee has saved many files I would have lost had my previous service providers would have lost to what I call "that black hole" in my computer. His knowledge of computer systems is excellent and has helped me on many occasions.

I have full confidence in recommending Peter to clients and associates.

Should you require any further information, please do not hesitate to contact me on 0407886212.

Regards,

Michael Liphuyzen
