

BAY & BRIDGE HOTEL

We have used Jack IT for the last 12 months for our IT requirements. The service has been fantastic and Peter has found some great solutions for our WIFI network and our computer network that have saved us time, and more importantly money. When ever I've had any issue they are only a phone call away and if needed and if required they come to the venue usually within 24hrs. I would recommend Peter and his team if you are after reliable and competitively priced IT solutions
